AUDIT-PROOF SOVEREIGNTY.

Your data is your most valuable asset. Axie Studio is built on a foundation of "Privacy by Design," ensuring your knowledge base remains secure.

Private Cloud

Deploy on your own infrastructure or our SOC2 Type II compliant cloud. You own the orchestration.

GDPR Native

Built-in data anonymization and residence controls to comply with strict global regulations.

Audit Logging

Trace every decision, every response, and every tool call for full transparency.

LATENCY IS THE ENEMY.

Why Axie Agents feel human:

1. Real-Like Voices

Powered by ElevenLabs Turbo v2.5 for emotional nuance.

2. Smart Interruptions (VAD)

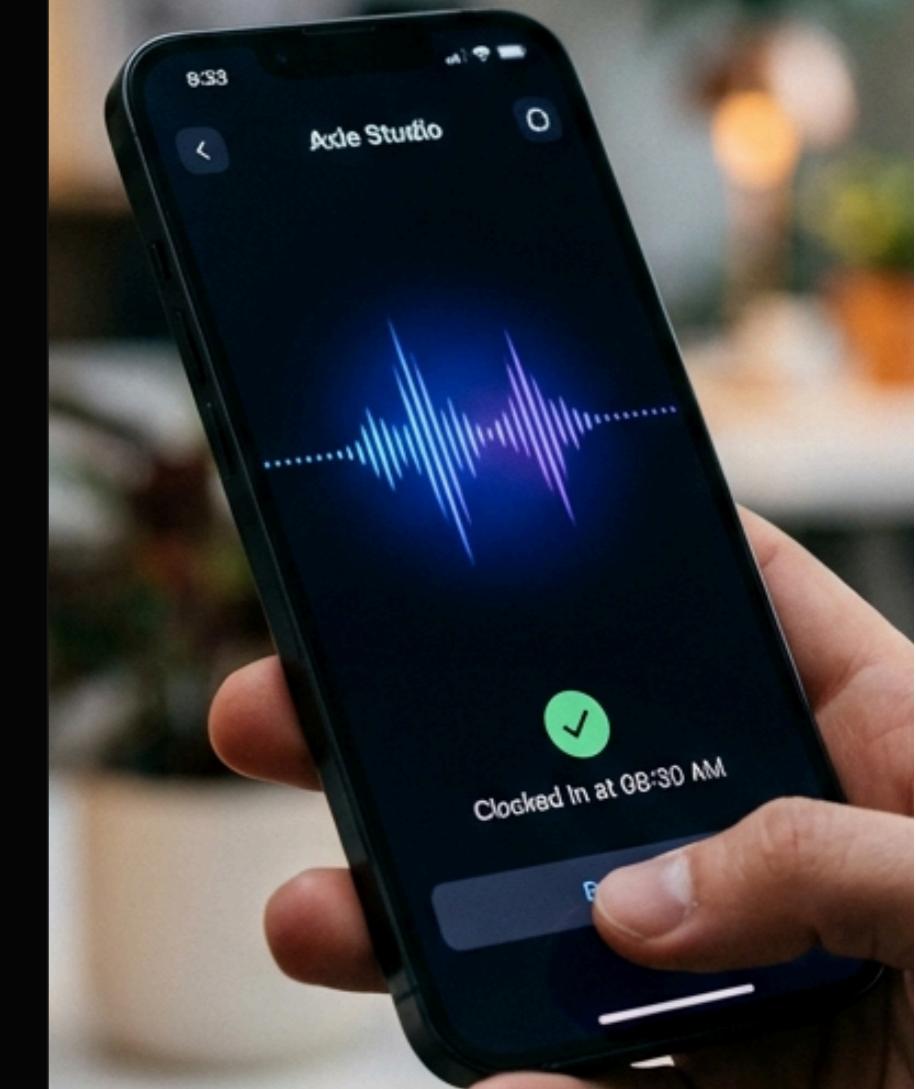

Using *Voice Activity Detection* and standard VAD Barge-in, our agents know exactly when to stop talking and listen.

3. Zero Latency

Optimized edge-transport means conversations flow naturally without the "robot pause."

REAL WORLD USE CASE

Customer Service 24/7
"Answering repeated questions via Knowledge Base."
Agent knows your company Identity, Mission, and Services—through and through.

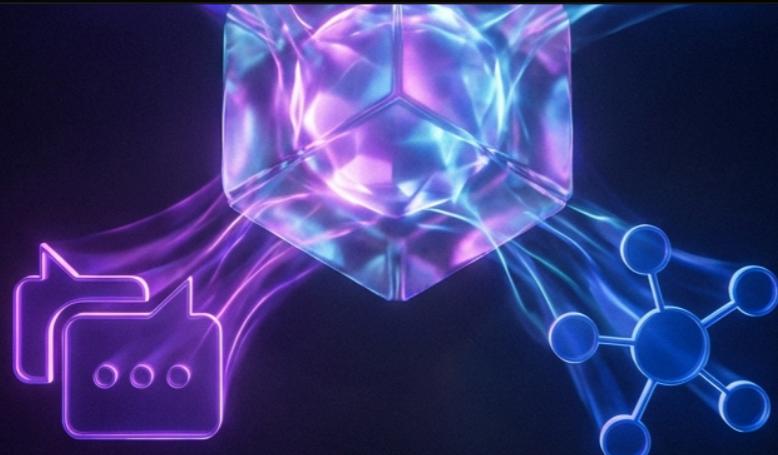

Enable agents to take real-world actions:
bookings meetings in Google Calendar,
processing orders, or triggering webhooks

Action Tools

Deploy across Voice, WhatsApp, Slack, and Web. A consistent intelligence, everywhere.

Omni-channel

Axie Agents don't live in a silo. They connect directly to the software you already use, turning your static data into an actionable, conversational experience.

NOW WITH A BRAIN. YOUR TOOLS,

/// CONNECTIVITY

Sophisticated logic ensures agents provide consistent, accurate information. Every time.

Conflict Resolution

The lead agent delegates to specialized sub-agents for research, booking, or support.

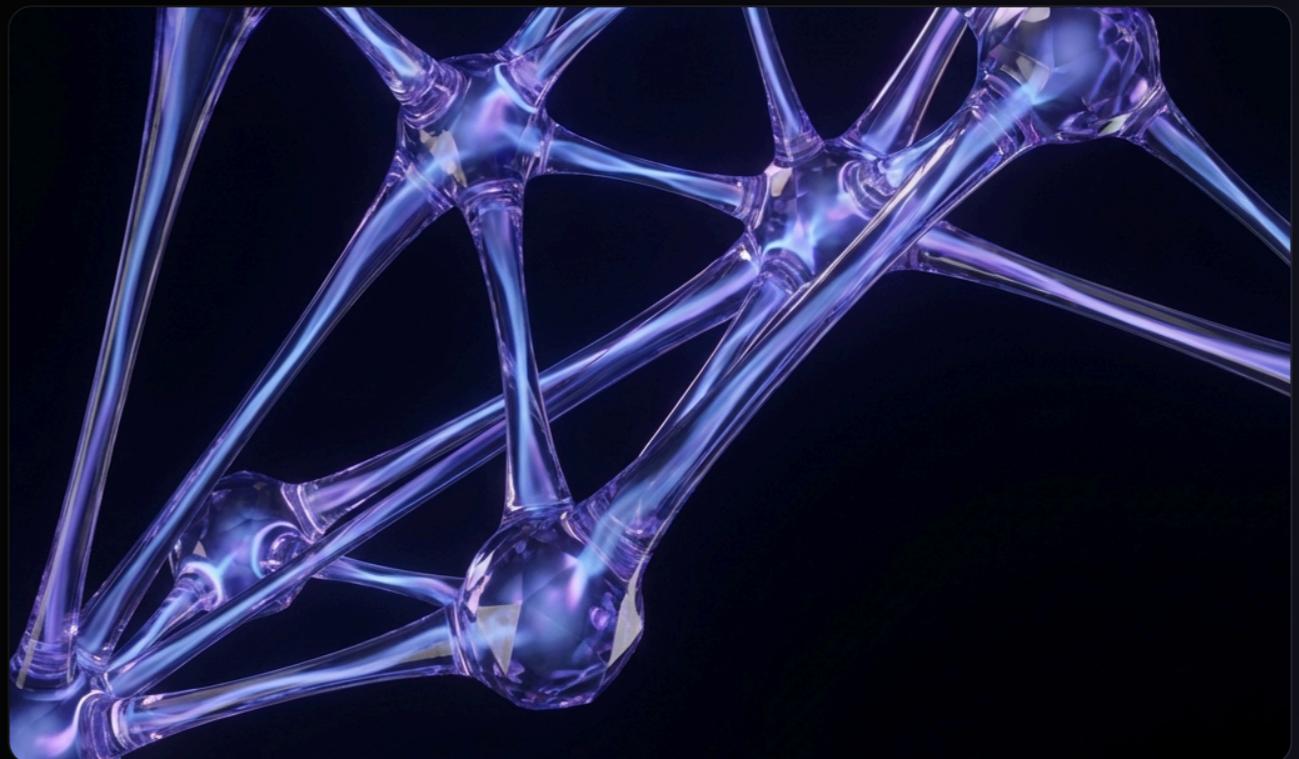

Shared Context

The entire swarm stays updated in real-time.

Task Delegation

Sync leads directly with Salesforce, HubSpot, or any bespoke database via RESTful APIs.

CRM Integration

The agent is a specialist. A team of agents is an empire. Axie Studio allows you to orchestrate multiple intelligent entities that coordinate to solve complex problems.
